

Twisting the Untwisted Mathematics of Space

HARITA RAVAL
HBCSE - TIFR

DECEMBER

31

2017

Alexandra Girls' High School

31, Hazarimal Somani Rd, Azad Maidan, Fort, Mumbai

11 am

In this session we will engage with some hands-on activities and puzzles which have an element of surprise. The activities are based on elementary principles of topology, which is the study of shapes and spaces. Together we would twist and untwist to explore some interesting mathematics and find mathematical connections through folding, cutting and twisting.

Entry FREE!
